Z-Band Direct Thermal Newborn and Maternity Wristband Solutions

Gentle enough for a newborn's delicate skin

Wristbanding newborns is a sensitive issue. While hospitals go to great lengths to properly identify newborns and match them to their mother and birth partner, clinicians are also concerned with the comfort and durability of the bands. Zebra kept these challenges in mind when creating a complete line of wristbands for newborns.

Barcoded wristbands are the foundation for positive patient identification and the prevention of serious medical errors. Zebra thermal printers produce crisp, clear print quality on all wristbands, so barcodes scan quickly and reliably. Zebra offers several soft, comfortable newborn wristbands to meet most hospital's needs.

Zebra's ZD510-HC Patient I.D. Solution

The reliable ZD510-HC direct thermal printer combined with easy-to-load cartridges of Z-Band wristbands in adult, pediatric or newborn sizes, as well as a maternity configuration, allow patient I.D. protocols to be easily implemented. Pop the wristband cartridge into the ZD510-HC printer and print durable, individual wristbands on demand. The ZD510-HC printer detects the wristband size and automatically calibrates its settings for optimal print quality.

Maternity Identification Wristbands

Streamline the identification with the printing of adult and infant wristbands in one set, to accurately and confidently associate a mother and birth partner to their newborn baby.

Z-Band UltraSoft Maternity ID Solution

Zebra's Z-Band UltraSoft Maternity ID Solution is a two-part wristband solution featuring one adult and infant wristband. When printed twice, it supports the identification of the birth partner, while providing an additional wristband to identify the newborn with.

- One of the softest direct thermal wristbands in the market
- Adhesive closure
- Up to 4x more durable to hand sanitizers than the leading competitor
- Total Set: 1 in. x 17 in./25 mm x 432 mm
- Adult Size: 1 in. x 11 in./25 mm x 279 mm
- Infant Size: 1 in. x 6 in./25 mm x 152 mm
- Part Number: 10035358-M1K

Newborn Identification Wristbands and Tags

Zebra's individual newborn identification solutions ensure positive patient identification and comfort. Available in several options, they provide you with flexibility when identifying the smallest of patients.

Z-Band Newborn Wristbands

Newborn Wristband Accessories

Zebra's ComfyCuff family of wristband accessories, when paired with Z-Band Newborn wristbands, offers clinicians a way to identify newborns without having to unwrap them.

ComfyCuff

The soft, foam cuff features an adjustable Velcro closure ensuring newborn comfort. It can be used in conjunction with Z-Band Fusion ID tags.

- 5 in. x 1.25 in./27 mm x 32 mm
- Latex-free
- Part Number: LB2-BABY-P

ComfyCuff Security Seal

Label securely sticks to the ComfyCuff and tears away to indicate tampering.

- 2.875 in. x 0.4375 in./73 mm x 11 mm
- Latex-free
- Part Number: LB2-BABY-CCS

ComfyCuff Newborn Swaddle Band

Tyvek® band creates an extension between the ComfyCuff and Z-Band Direct Soft Newborn Wristband or Z-Band Fusion ID Tag to make identification of swaddled babies quick and easy.

- 9 in./229 mm long
- Latex Free
- Part Number: LB2-BABY-SWB9

Vinyl Newborn Wristbands

Clip-Closure

Self-Locking

These latex-free, soft, flexible vinyl wristbands are for use with Z-Band Fusion newborn ID tags. The narrow width allows some models of "Abduction Prevention Systems" to be attached. They are available in clip or self-locking closure. The self-locking closure wristband enables size adjustment with a gentle tug as the newborn loses mass around the wrists and ankles within the first 24 hours of birth.

- Clip-Closure Part Number: PS-BABY
- Self-Locking Closure Part Number: PS- NEWBORN-ADJ
